This modern series of the **acar** surge protectors are equipped with the largest number of socket outlets 230V in the entire family of products **acar**. The **acar S10** is equipped with 10 surge protected socket outlets 230V (including 5 with an earthing pin). Ease of use and versatility are the basic features of this power strip, protecting appliances from surges at home and in the office. A large number of socket outlets allows to apply only a single power strip to connect all appliances requiring protection from surges. The **acar S10** has one of the best ratios of price to number of protected socket outlets. Mounting brackets are optionally available from the distributor.
