Network adapter

Model: **AK-AD-65**

Product code	AK-AD-65
Product type	Network adapter
Cable length	15 cm
The cable plug #1	USB Male connector type C
The cable plug #2	Female connector RJ45
Support	10 / 100 / 1000 Mbps
Plated plugs	Yes - nickel plated
Isolation material	PVC
Cable diameter	6 mm
Material	ABS
Product color	Silver
MTBF	100000 h
Temperature	5 - 50 °C
Package	UniBag
Product size (L x W x H)	60 x 24 x 15 mm
Package size (L x W x H)	150 x 100 x 16 mm
Net weight	24 g
Gross weight	28 g
CE compatibility	Yes
FCC compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5901720136732
Warranty	24 months

Description

Do you have a new notebook? Do you want to take advantage of a stable connection to the Internet via cable, but there is no **RJ45** socket in it? We have a solution! **Adapter Akyga ® AK-AD-65** is an **external network card** that does not require installation of any additional drivers. Just plug it into the appropriate port **USB-C** or **Thunderbold 3** in your laptop, then through the Ethernet cable connect to your router and you can enjoy a fast connection. This is an easy and fast way to reduce any lag that occurs with a Wi-Fi connection. The high quality guarantees the best connection and fast gigabit data transfer of up to **1000 Mbps**. That's why it's the perfect **hub for gamers** who care about the lowest possible PING. But that doesn't mean that the adapter won't also work well **in the office**. On the contrary. The adapter's small size means it doesn't take up much space on your desk, while the aluminum casing makes it look good, especially with metal-clad laptops like MacBook or Chromebook. At the same time, the **15cm cable** doesn't restrict you and allows you to route the card from the side USB C port to behind the matrix. This keeps your workspace neat and tidy. What's more, the adapter **doesn't require additional power**, and **built-in LEDs** let you know the status of your Internet connection.
