

Antenna Amplifiers

1. Introduction

Dear Customer! Thank you for your purchase in TME! To protect the environment we have prepared for you this quick start guide. Before operating the unit, please read it carefully. Please visit www.tme.eu Illustrations in this manual are only example images and may differ from the actual item. It does not change their main characteristics.

2. Application

This device is designed to amplify radio signal for the car AM/FM antennas.

3. Unit setup and operation

- Connect the unit between the radio set and car antenna with suitable connectors.
- Connect the power wire to the inducting cable on the radio, usually marked in blue as "remote".

4. Precautions

- Connect only to the 12V car installation.
- Do not disassemble the housing.
- Please observe the correct polarization.
- Use only as intended.
