## 4. Precautions

- Do not use the device if it is damaged. Before using the device, inspect the housing. Check if it has no cracks or broken off pieces. Carefully check the insulation surrounding the connectors.
- Make sure the battery cover is closed and latched before operating the unit.
- Do not use the device if it works incorrectly. Protection may be impaired. If you are unsure whether the device is working correctly, take it to the service.
- Replace the battery with a new one or charge the battery if the display shows the battery low indicator.
- When servicing the unit, use only spare parts specified by the manufacturer.
- Never use the device in explosive environments, if it is not designed to work in such conditions.
- Do not point the device directly in the eyes - there is a risk of blindness caused by laser light.
- Protect your eyes - the reflected laser beam may damage your eyes.
