Qoltec Power adapter for Samsung 65W | 19V | 3.42A | plug 3.0*1.0

Product code: 52406

The AC adapter dedicated to your laptop is a guarantee of safe power supply and use. You can use it at home or at work. It has a number of safety features to protect the connected laptop. It is characterized by high efficiency, which reduces energy consumption.

We invite you to familiarize yourself with the full range of our power supplies.
The configurator on our website or at notebookspareparts.pl will help you choose the right model.

A SOLUTION DEDICATED TO YOU

Reliability is crucial to you? Choose a Qoltec AC adapter dedicated to Samsung laptops. It is ideal for use at home or in the office, as a main or auxiliary power supply. It is made of the highest quality materials, and the technologies used in it will allow low power consumption and high efficiency. In the set you will find the power supply along with a velcro cable organizer, which will allow you to adjust the length of the cable to your needs.

SAFE POWER SUPPLY IN A UNIVERSAL DESIGN

The power supply will ensure stable operation thanks to the manufacture of the highest quality materials and special protections:

– **Against overvoltage**: protects against under- or over-voltage,

– **Against overloads**: protects against overloading the power line,

– **Against short circuits**: protects against short circuits in the power supply circuit,

– **Thermal**: protects against damage caused by overheating.

FITTING THE POWER SUPPLY – WE GIVE A HELPING HAND

Matching the right power supply to your laptop model is very important. The following points will dispel any doubts that may arise when choosing equipment: The basic parameters you will read from the label on the bottom of the laptop are: **POWER (W), VOLTAGE (V), AMPERAGE (A)**.

1. **Power (W) –** this number indicates the minimum value that a new power supply should have. Nothing prevents you from using a product with a higher wattage. This will put less load on it and, consequently, it will heat up less.

2. **Amperage (A) –** here, as in the case of POWER, the value on the new power supply can be equal to or higher than that stated on the laptop's rating label.

3. **Voltage (V) –** the number next to this parameter is more strictly required. Only a variation of +/– 0.5V is allowed.

4. The last and equally important issue is **the plug**. Without it, not a move! Here there is no deviation, it is necessary that it is identical to the original. The size given means the outer diameter and the inner diameter of the pin. If a comparison based on the picture shown is not enough, it will be necessary to measure it, which will ultimately reassure you in your choice.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. Each of the monitor power supplies we offer comes with a **36-month warranty valid from the date of purchase**.

TECHNICAL DATA

Producer	Qoltec
Designed for brands	Samsung
Usable power	65 W
Plug	3.0 * 1.0 mm
Input voltage	220 – 240 V
Output voltage	19 V
Output current	3.42 A
Frequency	50 – 60 Hz
Safety	Surge protection Overload protection Anti-short-circuit Thermal
Usage	Laptop
Cable length	~1.10 m
Colour	Black
Dimensions (D/L x W x H)	45 x 105 x 30 mm
Package	Box
Package contents	1 x AC adapter 1 x Power cord 1 x Velcro to organize the cable 1 x Warranty card 1 x User manual
Package depth / length [mm]	240
Package width [mm]	130
Package height [mm]	50
Net weight [kg]	0.223
Gross weight [kg]	0.333
Warranty	36 months
EAN code	5901878524061
