

Qoltec EV Cable Type 2 for car charging | 230V | 7kW | 32A | 5m

Product code: 52472

EV charging cable for an electric car equipped with a Type 2 plug compatible with most electric cars sold in Europe.

- TPU coating
- waterproof
- dustproof
- durable

ENJOY INDEPENDENCE AND CONVENIENCE

Don't let the low charge of your battery prevent you from using your electric vehicle. With our cables you can charge your car's battery in just a few minutes. Our EV cable will be perfect, for example, during longer vacation trips, thanks to its compact design, it takes up little space, you can easily carry it directly in the trunk or in the included bag. You don't have to worry about additional terminals, the cable has a type 2 connector - you can connect it from any station in Europe and enjoy independence while covering more miles.

EUROPEAN CONNECTOR STANDARD TYPE 2

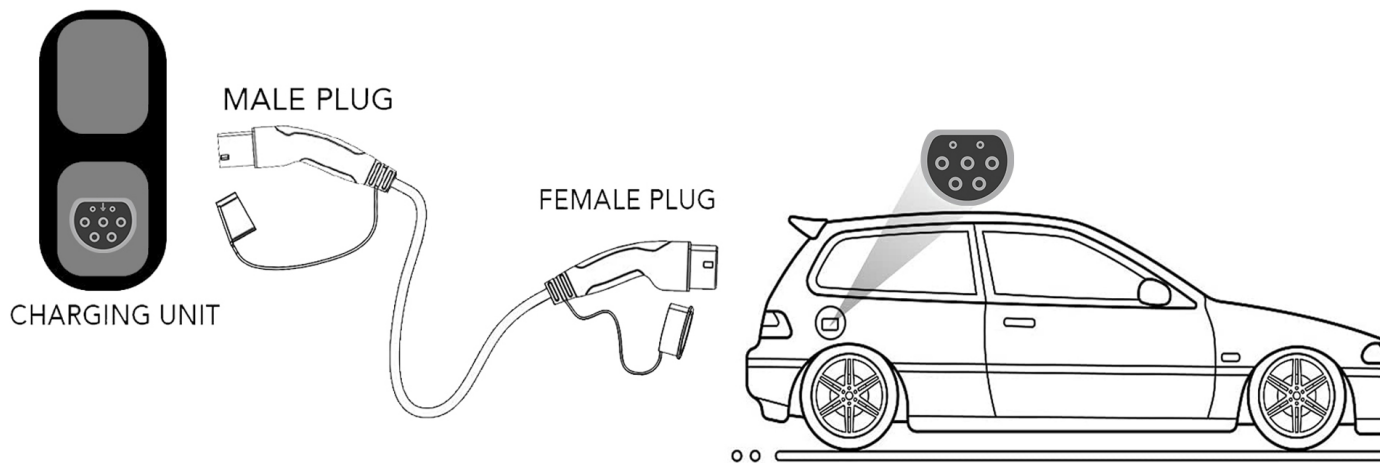

The cable has a Type 2 connector, which is now the official standard of the European Union and charges electric cars equipped with the corresponding charging socket. The Type 2 connector is 7 contacts, of which 3 contacts or 5 are for charging and 2 are for communication between the station and the car. Compatible with most electric cars sold in Europe.

CHARGE YOUR ELECTRIC CAR WITH THE BEST PRODUCTS ON THE MARKET

The ergonomic plug and 5-meter cable length will provide any user with a high level of convenience. The cable has been thoroughly tested, has full compliance with all required safety standards, is fireproof and resistant to extreme weather conditions, designed to operate at -30°C ~ $+50^{\circ}\text{C}$. In addition, the cable's outer sheath exhibits high durability and flexibility, as well as water and dust resistance.

HOW TO CONNECT THE EV CABLE CORRECTLY?

The cable has **2 male and 2 female connectors**. The illustration above shows the correct way to connect the cable. The exceptional flexibility of the cable and the ergonomic shape of the pistol ensures complete comfort during daily use and storage of the cable. **The mechanical life of the cable is ~ 10.000 connections**, i.e. daily charging of your car for at least **25 years**.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The chargers we offer come with a purchase.

24-month guarantee from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	2
Maximum charging power	7kW
Input voltage	230V
Output voltage	230V
Operating current	32A
Frequency	50Hz
Mechanical life	10 000 cycles
Diameter of the cable	13.5mm
Cross-section conductor of a cable	3*6mm + 1*0.5mm
Insulation material	TPU
Safety	Short circuit protection Overcurrent protection Undervoltage protection Overvoltage protection Ungrounded protection Fire protection Lightning protection Fully sealed and waterproof
Cable length	5m
Working temperature	-30°C ~ +50°C
IP Rating	IP65
Colour	Black, green
Dimensions (D/L x W x H)	250 x 70 x 62 mm 160 x 58 x 52 mm
Package contents	1 x EV cable 1 x Cable storage bag 1 x Warranty card
Package	Box
Package depth / length [mm]	355
Package width [mm]	400
Package height [mm]	140
Net weight [kg]	2.1000
Gross weight [kg]	2.5000
Certificate	CE, TUV, UL
Warranty	24 month
EAN code	5901878524726
