

Uninterruptible Power Supply UPS RACK | 6KVA | 4800W | LCD

Product code: 53943

The high quality emergency UPS RACK is designed for mounting in rack cabinets. It provides uninterruptible power supply and is equipped with double conversion technology with single phase input and output. UPS RACK is an ideal solution in cases when we want to protect our devices against voltage fluctuations and against the lack of mains power supply. The Qoltec UPS is a type of on-line power supply that is usually used in places where very much attention is paid to ensuring uninterrupted power supply and its high quality. Thanks to the included software, it is also possible to monitor the basic activities of the UPS.

TECHNICAL DATA

| | |
|-------------------------|---|
| USABLE POWER | 6KVA / 4800W |
| RATED CAPACITY | 6 KVA |
| POWER FACTORY | 0.8 |
| LOAD TYPE | Devices sensitive to the occurrence of voltage jumps, PC |
| AC FREQUENCY | 50 Hz - 60 Hz |
| OUTPUT RANGE (LINE) | 220 ~ 230 Vac 10 |
| OUTPUT FREQUENCY (LINE) | 50 Hz - 60 Hz |
| TRANSFER TIME | 4ms |
| OUTPUT SOCKETS | 1 x RJ45 (input, output) 1 x USB typ B SNMP card (Optional) AS-400 card (Optional) |
| SCREEN | LCD |
| STORAGE TEMPERATURES | -15 C to 45 C |
| OPERATING TEMPERATURE | 20 C to 40 C |
| AMBIENT TEMPERATURE | 0 C to +40 C |
| RELATIVE HUMIDITY | 0% to 90% |

| | |
|--------------------------------|---|
| USAGE | Data processing centers Industrial and production environments Medical centers Application in places where operational reliability is required |
| PACKAGE CONTENTS | User manual Warranty card CD with software |
| NOISE | 35dB (1 meter from the front panel) |
| NETWORK PROTECTION | RJ45 |
| COMMUNICATION INTERFACE | USB |
| DIMENSIONS | 660 x 430 x 130 mm 3U |
| WEIGHT | 15.9 kg |
| WARRANTY | 24 months |
| EAN CODE | 5901878539430 |
