

Qoltec Wi-Fi antenna 2.4/2.5 GHz | 5.1/5.8 GHz | 5dBi | omnidirectional | Indoor

Product code: 57046

The Wi-Fi antenna is a product designed to meet your expectations in terms of quality and wireless network coverage. It provides the highest standard of performance thanks to the precision of manufacture and the use of top quality components.

EXPAND THE LIMITS OF WIRELESS CONNECTIVITY

Frequency range 2400-2500MHz | 5100-5800MHz

Improve coverage and performance with Qoltec's 5dBi omni-directional Wi-fi antenna, which will clearly improve the quality of data transfer to your devices and can help maintain a stable connection even in areas with difficult signal conditions.

Supporting both the 2.4/2.5GHz and 5.1/5.8GHz bands, the antenna allows you the flexibility to use different frequency ranges . The 2.4GHz band offers better coverage, while the 5GHz band provides higher speeds.

DISCOVER A NEW DIMENSION IN INTERNET SPEED

High gain 5dBi, Strong signal

The Wi-fi antenna is designed to improve signal quality at home, in the office and in any other room with internet access, which can translate into a more stable connection faster data transfer speeds and better overall network performance . The installation of the indoor antennas is very simple, requiring no precise pointing in a specific direction, simply by connecting them to the antenna connector on the router.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The Wi-Fi antenna we offer comes with a **24-month guarantee** valid from the date of purchase.
