Description

Universal Akyga AK-CH-01 5W USB car charger, powered from a 12 / 24V car cigarette lighter socket. Output parameters: 5V / 1A. An effective and cheap device for charging mobile devices while traveling by car.

The charger made of ABS material allows you to connect smartphones, tablets, navigation, bluetooth headphones and all other accessories and devices through the microUSB socket. The maximum supply current is 1000mA. The fastening system used in the charger prevents sliding out of the cigarette lighter. A number of protections (OVP, OCP, OPP, OTP, SCP) and certificates guarantee the safe operation of the device, and its small dimensions ensure comfort of use and easy storage in any car glove. The charger is compatible with most popular smartphones available on the market.
