

## EasyPIC v8 for dsPIC30 over USB-C

PID: MIKROE-5388

EasyPIC v8 for dsPIC30 is a dsPIC30 Development Board for Microchip dsPIC30 MCUs in DIP packaging. It features USB-C programmer/debugger and contains many on-board modules necessary for device development, including multimedia, CAN, LIN, and others. Board comes with dsPIC30F4013.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.  
 ISO 14001: 2015 certification of environmental management system.  
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
