

Product type:HC-F24V-F100-12LED-WS2811

Product description:

- ❖ Commercial lighting,Residential lighting,Architectural lighting,Decoration lighting,General lighting
- ❖ Big channel letter ,Advertisements sign
- ❖ KTV,Disco,etc.entertainment places
- ❖ LED display screen, painted screen
- ❖ LOGO, advertising billboard,exposed luminous characters,

Parameter:

- ❖ Input voltage:DC24V;
- ❖ Type:LED Modules
- ❖ Model Number:LED Point Light
- ❖ Chip Material:Epistar
- ❖ Emitting Color:Full color
- ❖ Luminous Intensity:180-216
- ❖ Power:3W
- ❖ Viewing Angle(°):180
- ❖ Color Rendering Index(Ra):90
- ❖ Color Temperature:RGB
- ❖ Operating Temperature(°C):-40 - 85
- ❖ Storage Temperature(°C):-40 - 85
- ❖ Emitting Angle:180 degree
- ❖ Waterproof Method:Artificial glue+shell
- ❖ LED QTY(pcs):12 pcs smd 5050
- ❖ Shell Color:Transparent or Milky white
- ❖ Gray Scale:256
- ❖ IC Type:WS2811
- ❖ Emitting Color:Full color

Product picture:

Features :

- 1.HC-F24V-F100-12LED is a combination of a plastic (thermostability,cold-resistant,resistant to UV) shell and PCB board,contain 12PCS 5050 RGB SMD LED and 1pcs WS2811 IC .
- 2.With features of high brightness, low power dissipation, long lifespan, low Voltage, low decline, colorful.
- 3.This product can carry out full-color running water,chasing and scanning etc effects.
- 4.Depending on the different installation methods may compose different dynamic effect of different color's character and design.Widely used in Hotel, KTV and other entertainment place's indoor and outdoor decoration lighting.
