

Military in life, 007 close to me

WK 007

Measured by XTAR 14500 800mAh

Moonlight
2lm 33days

Low mode
20lm 13.6hrs

Mid Mode
200lm 1.58hrs

High mode/Strobe/SOS
500lm 47mins

[Output]

**Beam distance: 175m,
intensity: 7500CD**

[Great Compatibility]

Powered by 1xAA Ni-MH/
1xAA ALKA/1x14500
Li-ion batteries

[Adjustable Focus]

Zoom in for an intense beam or out for wider illumination with convex lens

[Compact Shape]

Perfect combination of trustworthiness and appearance with compact shape

[Protection]

Impact resistant 1.5M, waterproof IPX5

[Design]

Max tactical design
Compact for one handed
operation

Intuitive interface ensures unprec-
edented ease of use

[Weight]

**Only 50g weight with
belt clip for EDC,
Provide you assistance
and convenience**

Anti-rolling design for better loss
prevention

[Mode Memory]

Intelligent memory
function stores preferred
brightness setting

[CREE-XP-G3]

High brightness with
maximum output 500lm

[WK007 Specification]

ANSI	Illumination levels					
	High	Mid	Low	Moonlight	Strobe	Signal
 Luminance	500lm	200lm	30lm	2lm	500lm	500lm
 Runtime (XTAR 14500 800mAh)	47mins	1.58hrs	13.6hrs	33days	N/A	N/A
 Beam Throw	175m					
 Max Intensity	7500CD					
Adjustable Focus	12.5mm					
 Impact Resistant	1.5m					
 Waterproof	IPX5					
LED	CREE-XP-G3					
Switch	Tail tap switch					
Battery	1xAA NI-MH/1xAA ALKA/1x14500 Li-ion battery					
Body Material	Anodized aircraft 6N03 aluminum alloy; Type III hard-anodized anti-corrosion finish					
Size	28.5mm(head)x19.5 (body)x22mm (tail)x100mm(length)					
Net Weight	50g(battery excluded)					
Package Contents	Flashlight, stainless steel clip, manual, warranty card, lanyard, spare o-ring					

Notice: The above-mentioned parameters were lab tested which are approximate. Parameters may vary depending on the flashlights, chargers, batteries and environments.

[Packaging Contents]

Flashlight, stainless steel clip,
manual, warranty card, lanyard,
spare o-ring
